Information systems and recordkeeping

The Queensland Museum continues to progress towards compliance with the provisions of the *Public Records Act 2002, Information Standard 40: Recordkeeping and Information Standard 31: Retention and Disposal of Public Records*.

The Museum has progressed or implemented the following programs and activities:

- Staff education program for recordkeeping
- Campaign to promote an “Emails as Public Records” procedure and better workflow practices
- Queensland Museum File Naming Convention for improved accessibility and capture of Museum records and information
- Information Standard 18: Information Security including registering Museum documents in a recordkeeping system
- Queensland Museum Retention and Disposal Schedule for Queensland State Archives review
- Overseen an archiving program with Curtin University students appraising QM legacy records
- Disposed of 1,200kg of museum records in accordance with Queensland State Archives – General Disposal and Retention Schedule (Administration)
- Digitised vital records including Queensland Museum agreements, contracts, leases, memorandum of understanding and Museum’s policies and procedures
- A business case to implement an electronic document recordkeeping system (eDRMS) for the Museum network.

Consultancies

Category	Cost
Cultural change and leadership	\$182,500
Brand strategy	\$161,917
Business process mapping	\$76,200
Disaster planning	\$73,306
Return of Indigenous cultural property	\$20,200
Exhibition concept development	\$20,100
Business case to redevelop the Powerhouse at The Workshops Rail Museum	\$16,740
Total	\$550,963

Overseas travel

Name of officer/member and position	Destination	Reason for travel	Queensland Museum cost	Contribution from other agencies or sources
Dr Christopher Burwell, Senior Curator, Queensland Museum	Borneo, Malaysia	To teach a tropical field biology course in Sabah, Borneo as part of Dr Burwell's obligations as a 20% co-appointed Lecturer in the Griffith School of Environment, Griffith University.	\$450	\$2,555 (E) Griffith University
Dr Robert Raven, Head, Terrestrial Biodiversity, Queensland Museum and Dr Barbara Baehr, Research Fellow, Queensland Museum	USA	To examine displays, database and collections at the California Academy of Science, San Francisco and the American Museum of Natural History, New York for the Spider Catalogue of the World database, and the U.S. National Science Foundation Goblin Spider research grant to the AMNH; to attend the American Arachnological Society Annual Meeting in Portland, Oregon	NIL	\$9,575 National Science Foundation Grant
Mr Andrew Moritz, Director, The Workshops Rail Museum	Croatia & UK	Invitation to make a presentation to an international audience at the Best in Heritage Conference in Dubrovnik, Croatia; Visits and meetings with international museums in particular the National Rail Museum in York to gather ideas, view exhibitions and interpretation techniques in relation to further development of the Queensland Museum – The Workshops Rail Museum.	\$5,526	\$500 European Heritage Association
Dr Carden Wallace, Principal Scientist, Museum of Tropical Queensland, Townsville	Belgium, Spain, Italy	To attend the 11th Symposium on Fossil Cnidaria and Poriferain, to be held in Liege, Brussels, to present a paper, participate in conference sessions, review work with colleagues, to plan a new collaboration on the origins and future prospects of Great Barrier Reef corals. This was followed by invited field and laboratory research on fossil corals with palaeontologists in universities in Spain and Italy.	\$5,100 Professional Development	\$1,490 Self-Funded
Dr Christopher Burwell, Senior Curator, Queensland Museum	Yunnan, China	To conduct fieldwork (survey insects) at Ailao Shan, Yunnan Province, China as part of the "Biodiversity distribution and processes across adjacent climates: the key to prediction and monitoring of responses to climate change" Project, a collaborate project between the Queensland Museum, Queensland Herbarium, the Chinese Academy of Sciences and Griffith University.	NIL	\$2,150 (E) Griffith University

Overseas travel, cont.

Name of officer/member and position	Destination	Reason for travel	Queensland Museum cost	Contribution from other agencies or sources
Dr Robert Adlard, Head of Marine Zoology, Queensland Museum	Chile	To present a keynote address at the 8th International Symposium on Fish Parasites and to discuss new and ongoing collaborative partnerships.	\$61	\$3,610 International Symposium on Fish Parasites Conference Organisers
Ms Vicki Warden, Museum Development Officer, Cobb+Co Museum	New Zealand	To further develop the provision of outreach services to the regional Queensland museum industry by exploring alternative service delivery models and management systems. The information influenced the Queensland Museum's Resource Centre Network strategic planning.	NIL	\$5,211 Award of Museum & Art Gallery International Fellowship Funded by Arts Qld through the Regional Arts Development Fund
Ms Martie McConnell, Visitor Services Manager, Queensland Museum	USA	To undertake a study project in quality Customer Service Practices, as the recipient of the 2011 Queensland Museum Scholarship. The cornerstone of the project was a three day intensive training seminar at the prestigious Disney Institute in Anaheim, California. The outcome will be to provide a comprehensive in house training mechanism for front of house staff to enhance the frontline visitor experience.	\$5,498 Queensland Museum Scholarship	NIL
Dr Niel Bruce, Senior Curator, Museum of Tropical Queensland	South Africa	To undertake an ongoing research program on South African and Australian marine Isopoda (Crustacea); to strengthen existing ties and develop collaborative research with regard to studies of Queensland fish parasites, a currently neglected group in both Australia and South Africa; collections made are directly relevant to the current Queensland Museum's partnership in the current ABRS-CReefs project on marine isopods.	\$109	\$6,700 (E) University of Johannesburg
Dr Julien Louys, Curator, Queensland Museum	USA	To deliver an oral scientific presentation at the Society of Vertebrate Palaeontology Conference, Las Vegas; to examine material, exhibits and talk to exhibit staff at the American Museum of Natural History, New York.	NIL	\$3,700 (E) Self funded by Dr Julien Louys whilst on-service with salary funded by the QM, approved by CEO

Overseas travel, cont.

Name of officer/member and position	Destination	Reason for travel	Queensland Museum cost	Contribution from other agencies or sources
Mr Andrew Moritz, Director, The Workshops Rail Museum, Ipswich	USA	To attend the 2011 Railway Heritage Preservation Conference in Chattanooga; to further establish, build and maintain professional links with related organisations; to gain understanding of critical issues in US rail museums and apply this thinking to the further development of The Workshops Rail Museum within the Queensland Museum context; to further establish the Queensland Museum's Workshops Rail Museum as a Museum of international standing.	\$4,328	NIL
Dr Graeme Potter, Director, Queensland Museum and Sciencentre	UK, USA	To accompany the return of the loan of 19th century Torres Strait Islander artefacts to the University of Cambridge from the QM's successful "Awakening: Stories from the Torres Strait exhibition; to view the items for loan from the British Museum for the Australian exclusive presentation of <i>Mummy: Secrets of the Tomb</i> ; to discuss and view possible future international exhibitions in the USA for loan to the Queensland Museum.	\$11,822	NIL
Ms Theresa Chelepy-Roberts, Senior Curator, Cultures, Customs and Country, Queensland Museum	Rome, Italy	To escort and install the loan of ethnographic material from Kenniff Cave Display to the Palazzo delle Esposizioni (Palace of Exposition, Rome) for display in their "Journey of Man – History of Diversity" Exhibition, this being a condition of the loan of this material; to speak at the exhibition opening on the theme "Early Human Colonisation in Australia".	\$1,905	\$3,853 (E) Palazzo delle Esposizioni, Rome
Ms Karen Kindt, Assistant Collection Manager, Queensland Museum	Rome, Italy	To oversee the de-installation, condition reporting and packing of Queensland Museum archaeology objects on loan and on exhibition at Palazzo delle Esposizioni in Rome, prior to return to the Queensland Museum.	\$169	\$5,494 (E) Palazzo delle Esposizioni, Rome
Dr Robert Adlard, Head of Marine Zoology, Queensland Museum	Kenya	To deliver a workshop in fish parasitology at the Kenya Fisheries Research Institute on the coast of Lake Victoria, Kenya. This initiative will contribute directly to the Kenya's food security through the provision of knowledge of parasitic disease in fish, enabling effective management of one of their key nutritional resources.	NIL	\$3,300 The Australian Society for Parasitology

(E) Estimated

Research grants

Grantee	Project	From	Amount
Assoc. Prof. J.A. Fuerst, Prof. P.N. Shaw & Dr J.N.A. Hooper	Diversity of <i>Salinispora</i> actinobacteria producing pharmaceutically relevant natural products from Australian marine sponges (Year 3 of 3)	Australian Research Council Linkage Grant LP0882233 (through University of Queensland)	\$5,000
Dr J.N.A. Hooper & Prof. Chris Ireland	The most prevalent sponges (Porifera) from the inter-reef region, Great Barrier Reef World Heritage Area: morphology, molecular and chemotaxonomic datasets (Year 2 of 3)	Australian Biological Resources Study Grant (RF210-09) in partnership with University of Utah	\$53,767
Dr J.N.A. Hooper	SpongeMaps – an online wiki for collaboration amongst the sponge taxonomic community	Commonwealth Scientific & Industrial Research Organisation, Taxonomic Research Informatics Network (TRIN)	\$5,000
Dr J.N.A. Hooper , Assoc. Prof. A.R. Carroll & Dr D. Erpenbeck	Taxonomy of Australasian toxic sponges (family Desmacellidae: Porifera, Demospongiae), integrating morphology, molecular and biochemical datasets (Year 4 of 3 – approved extension)	Australian Biological Resources Study grant in partnership with CReefs & BHP Billiton (208-63)	\$27,000
Dr J.N.A. Hooper & Dr P.N. Alderslade	Taxonomy of tropical Australian Octocorallia (Anthozoa: Coelenterata) primarily from the Census of Marine Life 'CReefs' expeditions (Year 3 of 3)	Australian Biological Resources Study Grant (209-05) in partnership with BHP Billiton	\$100,000
Prof. J.N. Marshall, Prof. S.P. Collin, Dr K.A. Fritsches, Dr N.S. Hart, Prof. B.M. Degnan, Dr S.M. Degnan, Dr R.D. McCauley, Dr J.N.A. Hooper , Dr M.D. Norman, Dr P.A. Hutchings, Dr M.G. Meekan, Dr E.A. Widder, Dr T. Frank, Dr J.C. Partridge, Dr C.E. Diebel, Dr E.J. Warrant, Dr S. Johnsen, Prof. G. Woerheide & Dr D.J. Lindsay	Deep Downunder: designing a deep-sea exploration and discovery capability for Australia (Year 5 of 4 – extension granted)	Australian Research Council Linkage Grant LP0775179 (through University of Queensland)	\$485,720 (over 4 years)
Prof. R. Thacker, Dr J. Lopez, Prof. M. Hill, Dr D. Lavrov, Dr P. Bangalore, Dr A. Collins, Dr C. Diaz, Prof. A. Hill, Dr J.N.A. Hooper , Dr K. Peterson, Dr S. Pomponi, Mr J. Reed & Prof. G. Wörheide	AToL: PorToL - The Porifera Tree of Life Project (Year 4 of 4)	US National Science Foundation Collaborative Research grant NSF 08-515 (through University of Alabama at Birmingham)	US\$3,000,000 (over 4 years)

Research grants, cont.

Grantee	Project	From	Amount
Dr R.D. Adlard , Dr T.H. Cribb, Prof I Beveridge & Dr T. Miller	Diversity of endoparasites of coral reef fishes primarily from the CReefs: Census of Marine Life Detail: There is a clear relationship between fish health and their parasite load. This project will provide enabling information on parasite impacts and help secure fish populations for tourism, harvest fisheries and aquaculture.	Australian Biological Resources Study grant in partnership with CReefs & BHP Billiton (209-29)	\$300,000 (over 3 years)
Dr R.D. Adlard & Dr K. Hall	Provision of taxonomic and nomenclatural treatments of Turbellaria for the Australian Faunal Directory (AFD) Detail: The Australian Faunal Directory ensures that the publicly available data generated by the QM has correct and unambiguous assignment of nomenclature and taxonomy.	Australian Biological Resources Study (ABRS)	\$15,000 (over 2 years)
Dr C. Arango (PI), Dr. K. Miller, Dr. J. Stark, Dr. W. Wheeler, Dr. T. Munilla, Dr. V. Wadley	"Evolution and Diversification of Antarctic sea spiders (year 3 of 3)"	Australian Antarctic Science Grants	\$21,901
Mr P. Davie	A taxonomic revision of Australia's mangrove and intertidal crab fauna with production of interactive keys, and a field guide.	Australian Biological Resources Study Grants (208-72)	\$29,202
Mr G. Thompson	Build taxonomic capability to identify and illustrate microscopical faunas of significance through high definition digital imaging infrastructure Year 2 of two financial years. Detail: Provide in-house high definition digital imaging capability to improve taxonomic imaging for species discovery and descriptions.	Atlas of Living Australia	\$171,830
Dr R. Raven	National Reserve System surveys – Bush Blitz Project	Salary: Australian Biological Resources Study (SEWPaC) Operations: Council of Heads of Australian Faunal Collections (through SEWPaC)	\$20,000
Dr O. Seeman	Mites of quarantine importance to agriculture (in collaboration with AQIS)	Australian Quarantine Inspection Service (DAFF)	\$5,500
Dr C. Lambkin, Dr F. Turco	Systematics of Australian Zopherid forest beetles (ABRS grant). Detail: Paper describing 9 new species, 9 redescribed species transferred, 1 new synonymy, and 7 new lectotypes.	Australian Biological Resources Study Grant	\$70,000
Dr C. Lambkin	ABRS Bush Blitz BBR210-40 - Therevidae. Detail: Documentation of Australia's remarkable therevid diversity. One genus to be systematically revised, and description of two new genera and around 45 new species in rigorous taxonomic and phylogenetic treatments including interactive keys, illustrated morphological descriptions, comparisons of male and female genitalia, distribution maps, and GIS specimen databasing.	Lambkin A4.2 - Australian Biological Resources Study (ABRS) National Bush Blitz Program Research Grant (ABRS BBR210-40)	\$45,000

Research grants, cont.

Grantee	Project	From	Amount
Dr C.L. Lambkin	UQIC ENTOMOLOGY COLLECTION DATABASING. Detail: Update the Queensland Museum Vernon database to serve as the taxonomic and GIS location lexicon for the combined Queensland Museum and University of Queensland Insect collections.	UQ Deed of Gift	\$50,000
Dr C.L. Lambkin	Australian Faunal Directory. Provision of taxonomic and nomenclatural treatments of Diptera. Detail: Online species lists for all Australian lower Diptera (Nematocera – mosquitoes, midges, gnats), Syrphidae (hover flies), Therevidae (stiletto flies), Bombyliidae (beeflies), with updated taxonomic information, distributions, literature, and often images (of QM types) to be available free to the world community. Without such lists the ALA and EoL cannot link information concerning the Australian fauna.	Australian Biological Resources Study Contract	\$5,000
Dr C.L. Lambkin	Australian Faunal Directory. Upgrading of taxonomic and nomenclatural treatments of Diptera: Tephritidae. Detail: Online species lists for all Australian Tephritidae (fruit flies) with updated taxonomic information, distributions, literature, and often images (of QM types) to be available free to the world community. Without such lists the ALA and EoL cannot link information concerning the Australian fauna.	Australian Biological Resources Study Contract	\$10,000
Dr J. Healy	Sperm ultrastructure in vermetid gastropod and bivalve molluscs with special emphasis on taxonomic and phylogenetic implications (US NSF grant). Detail: To use comparative sperm ultrastructure (in this case transmission electron microscopy) to investigate higher level taxonomic and phylogenetic issues a range of vermetid gastropod and bivalve molluscs.	US National Science Foundation	\$45,000
Dr C. Burwell	Ants as 'bioindicators' of ecosystem health in Queensland. Detail: To survey the ant fauna of Queensland. To develop a standardised named or code-named voucher collection of Queensland ant species that can be used by various Local and State Government Agencies and other institutions currently involved in ant related research.	Collaborative research project with Griffith University & CSIRO	\$25,000
Dr C. Burwell	Baseline surveys and biodiversity of invertebrates of urban and peri-urban areas, and taxonomic identification services of insects from remote and threatened habitats. Detail: Biodiversity surveys of poorly studied areas, threatened by urbanisation and development, including remnant vegetation and reserves in the Redland Shire.	Biodiversity Assessment and Management (BAAM), and Regional Councils funding	\$20,000
Dr C. Burwell	The Coleoptera Beetle Tree of Life project. Detail: Provide DNA quality collections for analysis of tissues for the Beetle Tree of Life project.	Operations - CSIRO Ecosystem Sciences (Entomology)	\$15,000
Dr C. Burwell	Ant Databasing. Detail: To develop a standardised named or code-named voucher collection of Queensland ant species that can be used by various Local and State Government Agencies and other institutions currently involved in ant related research.	Collaborative research project with Griffith University & CSIRO	\$10,000

Research grants, cont.

Grantee	Project	From	Amount
Dr S. Hocknull & Dr J. Louys	<p>Climate Change and Megafauna in the Tropics 2.</p> <p>Detail: QM Geosciences team will excavate, date and analyse the unique fossil assemblage preserved in Colosseum Chamber, Mt Etna, Rockhampton region. This fossil site contains hundreds of thousands of fossils of small fauna, including small mammals, reptiles, frogs, birds, and snails spanning the last 50,000 years. This project will provide the crucial deep-time knowledge of the biodiversity of semi-evergreen vine thicket, dry rainforest and cavernous ecosystems, which are experiencing unprecedented environmental degradation. Knowledge of such prehistoric records provides unique insights into how climate has impacted upon and shaped our terrestrial ecosystems, and allows us to better predict the effects of future climate change. Julien and Scott visited the site in September, to re-establish contact with the caves' owners and collect preliminary charcoal for U-series dating.</p>	<p>Private Non-Profit: Ian Potter Foundation</p>	\$45,000
Dr S. Hocknull	<p>Project DinOzaur- Explore, discover and document the rich Mesozoic fossil record of Queensland.</p> <p>Detail: This project utilises diverse phylogenetic, biogeographical and isotopic analyses to investigate factors responsible for past speciation, dispersal and extinction dynamics (e.g. tempo of evolution, divergence timing and climate change) in Australian Mesozoic biotas. The Australian mid-Cretaceous continental record is particularly significant because it spans a poorly known stratigraphic interval and is associated with an ancient high-latitude zone periodically subject to near freezing conditions. Intensive palaeontological research will benefit local communities by promoting regional museum tourism and directly creating jobs; this encourages fossil resources to be viewed as valuable natural assets to be responsibly managed for the future.</p>	<p>ARC LP100100339 Mesozoic Austral Biodiversity.</p> <p>ARC Linkage Grant Fund Uni Adelaide Administered +</p> <p>Queensland Museum Matched Funding - Industry partner contribution to ARC LP</p> <p>- QM funding for community Dinosaur Digs</p>	\$10,000 + \$25,000
Dr S. Hocknull	<p>Environmental change in northern Cenozoic Australia: a multidisciplinary approach.</p> <p>Detail: To Explore, discover and document the rich Quaternary fossil record, found in the caves, floodplains and lakes of Queensland. Document the fauna, flora and palaeoclimate northern Australia over the Cainozoic years and assess the relative impacts of natural climate change and anthropogenic change on northern Australian biodiversity prior to European arrival. Focus on regionally endangered ecosystems under threat from Global Warming (Rainforests (Closed & Dry) and Cave Refugial Faunas).</p>	<p>ARC Linkage UNSW LP0989969 +</p> <p>Industry partner contribution</p> <p>- Queensland Museum Foundation</p>	\$89,011+ \$5,000
Dr J. Rhodes, Dr J. Worthington Wilmer, Prof C. McAlpine, Dr A. Peterson and Prof F. Carrick	<p>Conserving Species in Human Modified Landscapes: Incorporating Spatial Population Processes (Year 3 of 3, ends 30.11.12)</p>	<p>Australian Research Council Linkage Grant LP0990178 (through University of Queensland)</p>	\$352,000 (Over 3 years)

Research consultancies

Grantee	Project	For	Amount
Dr J.N.A. Hooper	Australian Faunal Directory. Provision of taxonomic and nomenclatural treatments of Porifera (Year 2 of 2)	Australian Biological Resources Study (ABRS) Contract	\$1,000
Dr J.N.A. Hooper	Advisory Committee sitting fees	Australian Biological Resources Study Advisory Committee	\$470
Dr J.N.A. Hooper	Curation and taxonomic development of the frozen samples from the Great Barrier Reef Seabed Biodiversity Project	Australian Institute of Marine Science	\$38,467
Dr D. Steinke, Dr G. Paulay, Dr P. Bouchet, Dr S. Samadi, Dr J.N.A. Hooper & Prof. G. Exhibitions, public programs and events

Queensland Museum

Title	Duration	Description
Exhibitions		
<i>A is for Animals</i>	18 June - 28 August 2011	An interactive exhibition to explore and discover the roles that animals play in war. Touring exhibition from Australian War Memorial.
<i>Awakening: Stories from the Torres Strait</i>	25 June – 2 October 2011	The exhibition showcases objects of extraordinary beauty and significance from Queensland Museum's extensive Torres Strait collection and celebrates the culture of Torres Strait Islanders.
<i>Rock around the Block</i>	21 July 2011-ongoing	The exhibition about Rock 'n Roll George's car, a Brisbane icon.
<i>Climate Changers – Kids thinking big about sustainability</i>	20 August -11 September 2011	A community exhibition showcasing big artworks about sustainability created by some of our state's smallest citizens. Discover the brilliant climate change solutions of 8–10 year olds from Milton State School. Presented by Jaina Kalifa with the support of the Queensland Government, Hands on Art and the Climate Collaborators Network.
<i>Energex Playasaurus Place</i>	20 January 2012 - ongoing	Energex Playasaurus Place was redeveloped to focus on Energy and You – where visitors are encouraged to make choices about their energy use and to become aware that their energy choices have impacts.
<i>Discovery Centre</i>	20 January 2012 - ongoing	The renovated Discovery Centre features an Inquiry Zone, Collection Zone, Creature Feature, Activity Zone and an interactive Shark experience. The Collection Zone includes the updated discovery drawers and collection cases, which are a result of amazing work and effort from Discovery Centre staff, curators, conservation, collection managers, exhibitions and graphics. New programming in the Discovery Centre include: Daily Discoveries (presented by DC staff), Meet our Curator (every Wednesday), Digital Discoveries Trail and Behind the Scenes Tours.
<i>Foyer Redevelopment</i>	20 January 2012 - ongoing	5 large screens featuring vignettes reflective of the Museum and its collections are the highlight of the redeveloped Museum foyer. Laura Cave imagery, Walba river craft and Bert Hinkler's plane are all reflective of the story of the Queensland and complement this multimedia display.
<i>Collection Highlights - Staircase and Liftwell Showcase displays</i>	20 January 2012 - ongoing	Complimenting the new staircase and liftwells, Collection highlights of the State's natural and social history collections are highlighted.
<i>Giants of the Past</i>	20 January 2012 - ongoing	Giants of the Past exhibition features fossils from Queensland's prehistoric past including the Lark Quarry stampede.
<i>QM150 display</i>	20 January 2012 - ongoing	A multimedia interactive display that asks people to choose items from the collection that is their favourites. This interactive is also accessible on the website.
<i>Bouncing Back from Disaster</i>	20 January -20 May 2012	A display that reflects on both the social and natural impact the 2011 floods.
<i>From Little Things Big Things Grow</i>	11 February -13 May 2012	A touring exhibition for the National Museum of Australia focusing on indigenous rights.
<i>Ancient Egypt – Objects from the Queensland Museum Collection</i>	26 March -7 October 2012	An exhibition highlighting Queensland Museum's collection of objects from Ancient Egypt.
<i>Mummy: Secrets of the Tomb</i>	19 April -21 October 2012	This spectacular exhibition from the British Museum reveals the life and death of an Egyptian priest and tells his story through an extraordinary 3D film and an exhibition showcasing more than 100 ancient objects.

Exhibitions, public programs and events, cont.

Queensland Museum, cont.

Title	Duration	Description
Public programs and events		
<i>Kids Meet Up! Island Style</i>	27 June -10 July 2011	<i>Kids Meet Up! Island Style</i> focused on Torres Strait Island activities and workshops.
<i>Science After Dark – Radical Wine and Chocolate</i>	26 August 2011	This delicious event revealed the chemistry behind wine and chocolate and invited visitors to conduct scientific experiments. A collaboration with the ARC Centre of Excellence for Free Radical Chemistry. Presented as part of National Science Week.
<i>National Science Week</i>	19 – 28 August 2011	Science activities, talks and events, including the popular Science Works, where museum scientists and curators engaged the public with their research and collections. <i>National Science Week</i> was launched at QM on 12 August 2011. Science for Life! program highlights were Sharing Science - celebrating current research with museum scientists engaging the public to showcase museum collections, their work and careers in science; Young Scientists of Australia presented their Earth, Water, Wind & Fire Show; “Trust us, we’re Scientists” panel discussion; and feature presentation by Bernie Hobbs. QM also participated in <i>Jurassic Science Week</i> . A national project involving smart phone technology and ‘augmented reality’ dinosaurs. Virtual dinosaurs were at various locations across the country, visitors can download an app on their smart phones to ‘see’ dinos and take photos with them.
<i>Kids Meet Up! September</i>		QM worked with the local Brisbane Torres Strait Island community and members from Island communities to develop and deliver a contemporary performances focused program for the September School Holidays
<i>Brisbane Open House</i>	1 October 2011	QM participated in the Brisbane Open House program. This program was launched at the Museum by the Governor of Queensland.
<i>Dinosaur Picnic</i>	5-15 January 2012	An off-site museum event that mixed science with imagination in the Dinosaur Picnic, a program developed for the Summer Family Fun program at QPAC. Children created a dinosaur costume then danced and sang along to performances by Jurassic Joe.
<i>Queensland Museum and Sciencentre Reopening Celebration/ 150th Birthday Celebrations</i>	20-22 January 2012	Queensland Museum reopened on 20 January with three days of programming and celebration. Programming included: Dinosaurs on the Prowl, Dinosaur Activity Zone, Daily Discoveries (specimens, objects and stories in the Discovery Centre), Curator Talks and the coolest show on earth, the Liquid Nitrogen Science Theatre Show. Curator Talks were held in Marine Reptiles, Bouncing Back from Disaster and at the C&H Collection Cases in the Discovery Centre. Curators also did talks in the Discovery Centre on Snakes, Spiders as Pets, Safe Living with Spiders, Fantastic Fossils and Fantastic Flies.
<i>Giants of the Past – Dinosaur Activity Zone</i>		A Dinosaur Activity Zone continues to support the exhibition <i>Giants of the Past</i> . Children are encouraged to step back in time and become dinosaurs. The Zone offers learning opportunities through active and contemplative play. Activities focus on dinosaur features (mask making, tail making, drawings) and dinosaur behaviours (dress ups, dinosaur nests).
<i>Insectarium</i>	2-13 April 2012	Enter a world of insect discovery in the <i>Insectarium</i> activity zone (Magnify, My Butterfly, Insect Artist and Insect Match Up), in the Discovery Centre for the April School Holidays.
Warning: Small Parts	2 – 5 & 10 – 13 April 2012	Warning: Small Parts is a theatre performance focusing on collecting and stories. Produced by theatre company Grin & Tonic, and aimed at children, this show seems like a perfect fit for the Museum.

Exhibitions, public programs and events, cont.

Queensland Museum, cont.

Title	Duration	Description
Behind the Scenes Tours	February 2012 - ongoing	Behind the Scenes Tours enable visitors to delve into the mysterious unseen world of Museum's collections with Discovery Centre tour guides. Visitors can see our collections up close and learn more about how we store and use our objects and specimens.
My Terrific Hieroglyphic – Out of the Box Festival	12 – 17 June 2012	Discover some of the symbols, marks and pictures people from around the world use to tell stories. Get hands-on to match up hieroglyphs, pictures and letters.
Mummy Public Programs	19 April – 21 October 2012	<p>Mummy: Our Story Your Story As part of the whole OSYS program, there will be Mummy themed Feature Talks and Floor Talks. Dr John Taylor, Curator from The British Museum was the first speaker on Saturday 19th April. Dr Taylor's talk was <i>The Horizon of Eternity: living and dying in ancient Egypt</i> will take us on a journey back to ancient Egypt to explore the rich and varied lifestyles of ancient Egyptians and piece together the secrets of the ancient Egyptian Afterlife. Dr John Taylor will be book signing after the talk.</p> <p>Family Trail Where is the mummy of Nesperennub? Come on an adventure and explore <i>Mummy: Secrets of the Tomb</i>. Be an archaeologist and search for clues within the exhibition. Discover all you can about the ancient Egyptian Nesperennub. Who was he? What did he do? What did he believe in? Explore the clues, uncover his ancient secrets and find the mummy of Nesperennub. Suitable for families with children 4 – 12 years.</p> <p>Mummy After Dark has been scheduled for the 2nd Friday of the each month. 11 May, 8 June, 13 July, and 10 August.</p> <p>Mummify DIY (mummification) June School Holiday workshops run by the Abbey Museum in association with Queensland Museum.</p>
Our Story Your Story	June 2011 -June 2012	A series of thought-provoking talks and discussions covering diverse topics, exhibitions and programs.
Daily Discoveries	June 2011 -June 2012	<i>Daily Discoveries</i> talks are delivered weekdays at 11am and 2pm in the Discovery Centre. Creature Feature is a popular theme utilising the live stick insects in the talk.
Meet our Curators	June 2011 -June 2012	Every Wednesday a curator or collection manager sets up in the Discovery Centre to share their collections and research. This program provides opportunities for one-on-one and one-small group conversations.
School Programs	June 2011 -June 2012	Staff facilitated school programs for Prep – Year 12, covering a range of topics including: Dinosaurs and Fossils, Insects and Biodiversity and Classification and focusing on specific exhibitions including <i>Dandiiri Maiwar</i> exhibition Up Close and Animal Zoo Galore!

Exhibitions, public programs and events, cont.

Sciencentre

Title	Duration	Description
Exhibitions		
<i>Megawatt</i>	19 February -2 October 2011	<i>Megawatt</i> , focuses on the science of electricity in our everyday lives. Touring exhibition from Scienceworks.
<i>Whodunit?</i>	20 January 2012 - 8 July 2013	This is a unique and interactive exhibition that focuses on the science and technology of forensic science. The crime scene is a zoo, a security guard has been shot dead and a prized white rhino has been stolen. <i>Whodunit?</i> , allows visitors, armed with a crime file, to use forensic science such as finger-printing, chromatography, autopsies, footprints and DNA samples to gather evidence and solve this murder mystery. A touring exhibition from Scitech.
Public programs and events		
<i>Gross Show – Science Theatre</i>	20 January 2012 - 31 December 2012	Exploring the gross aspects of science in the Sciencentre Theatre Show

Exhibitions, public programs and events, cont.

Cobb+Co Museum

Title	Duration	Description
Exhibitions		
<i>Heritage Treasures – Jondaryan Woolshed</i>	19 July - 28 August 2011	One of a series of changing displays of treasures showcasing 8 cultural heritage organisations in the Toowoomba Region developed by MDO Vicki Warden with the Cultural Heritage Network.
<i>Empire Theatre</i>	30 August - 30 November 2011	A community exhibition developed to celebrate 100 years of the Empire Theatre in Toowoomba.
<i>Bloom</i>	3 September 2011 - 23 January 2012	<i>Bloom</i> features 35 images taken by Queensland Museum photographers for Queensland Museum's popular Wild Plants of Greater Brisbane publication.
<i>Queensland Dragon: Chinese in the North and on the Darling Downs</i>	March - August 2011	This exhibition documents the early contribution of Chinese migrants to North Queensland from the 1870s through to wartime efforts in the 1940s. It is complemented by a series of stories from the Darling Downs Chinese community.
<i>Queensland in a New Century – the photos of A.E. Roberts (Jnr)</i>	May - October 2011	This exhibition features stunning images of a happy and carefree Southern Queensland in the Edwardian era.
<i>Weaving from Queensland</i>	24 June 2011 - 11 June 2012	An exhibition of baskets from the QM collection showing the cultural diversity of Aboriginal weaving throughout Queensland.
<i>150 Years of Toowoomba through The Chronicle lens</i>	22 October 2011 - 3 January 2012	This exhibition celebrated 150 years of The Chronicle in Toowoomba with some of the stories and images that have captivated the city.
